

# Safety Rap

When going on the internet you must take care

Keep yourself safe and be aware

When you're chatting to 'friends' on the net

Are they telling the truth, have you ever met?

People can lie, and say they're ten

When really they could be nasty men

You think they're your friend when they could be a stranger

They may put you in lots of **DANGER!**

So photo or number - don't give to anyone

Remember these rules and you'll have fun!
